

exception/nicknameAlready  
Added/nicknameAlreadyAdded.h

```
graph TD; A["exception/nicknameAlready  
Added/nicknameAlreadyAdded.h"] --> B[iostream]; A --> C[exception];
```

The diagram illustrates a header file structure. A top box contains the path 'exception/nicknameAlreadyAdded/nicknameAlreadyAdded.h'. Two arrows point from this box to two separate boxes below: 'iostream' on the left and 'exception' on the right.
